End Application:

1430-01-087-6330

Voltage Rating In Volts Per Characteristic:

655.0 breakdown voltage, instantaneous

Maximum Operating Temperature Per Measurement Point:

125.0 degrees celsius ambient air

Product Name:

Semiconductor device, diode-transient voltage suppressor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
