Inclosure Material:

Plastic

Features Provided:

High frequency

Special Features:

Advantages are high reliability circuit operation; low voltage peaks for reduced protection circuits; low losses; operating at lower temperature or space saving by reduced cooling; features are planar passivated chips; very short recovery time; extremely low switching losses; soft recovery behaviour

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
