Voltage Rating In Volts Per Characteristic:

50.0 breakdown voltage, instantaneous

Product Name:

Diode, surface mount rf pin switch and limiter

Special Features:

Item is optimized for switching applications where ultra-low resistance is required; min breakdown voltage at 50, max series resistance is 0.6, max total capacitance at 0.8; item furnished in single configuration; optional description is tape and reel, 3000 devices per 7 inch reel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
