Inclosure Material:

Plastic

Overall Length:

1.80 millimeters

Overall Height:

1.80 millimeters

Voltage Rating In Volts Per Characteristic:

30.0 repetitive peak reverse voltage

Current Rating Per Characteristic:

300.0 milliamperes repetitive peak forward current

Capacitance Rating In Picofarads:

10.0

Maximum Operating Temperature Per Measurement Point:

150.0 degrees celsius ambient air

Product Name:

Schottky barrier diode

Terminal Type And Quantity:

2 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
