**Inclosure Material:**

Plastic

**Overall Length:**

1.80 millimeters

**Overall Height:**

1.80 millimeters

**Voltage Rating In Volts Per Characteristic:**

30.0 repetitive peak reverse voltage

**Current Rating Per Characteristic:**

300.0 milliamperes repetitive peak forward current

**Capacitance Rating In Picofarads:**

10.0

**Maximum Operating Temperature Per Measurement Point:**

150.0 degrees celsius ambient air

**Product Name:**

Schottky barrier diode

**Terminal Type And Quantity:**

2 pin

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A110a0
