Function For Which Designed:

Switching

Mounting Facility Quantity:

3

Mounting Method:

Terminal

Current Rating Per Characteristic:

1.0 amperes forward current, average

Capacitance Rating In Picofarads:

0.8

Product Name:

Semiconductor device, diode

Terminal Type And Quantity:

3 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
