Function For Which Designed:

Rectifier

Voltage Rating In Volts Per Characteristic:

30.0 reverse voltage, dc

Current Rating Per Characteristic:

2.0 amperes forward current, average

Capacitance Rating In Picofarads:

200.0

Maximum Operating Temperature Per Measurement Point:

150.0 degrees celsius junction

Product Name:

Rectifier

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
