**Overall Length:**

3.5 inches

**Overall Width:**

2.05 inches

**Voltage Rating In Volts Per Characteristic:**

160.0 repetitive peak reverse voltage

**Product Name:**

Voltage regulator diodes

**Special Features:**

Glass passivated, high operating temperature; low leakage current; excellent stability; zener working voltage range: 3.6 to 270 v for 46 types; transient suppressor stand-off voltage range: 6.2 to 430 v for 45 types.

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A110a0
