Overall Length:

3.5 inches

Overall Width:

2.05 inches

Voltage Rating In Volts Per Characteristic:

160.0 repetitive peak reverse voltage

Product Name:

Voltage regulator diodes

Special Features:

Glass passivated, high operating temperature; low leakage current; excellent stability; zener working voltage range: 3.6 to 270 v for 46 types; transient suppressor stand-off voltage range: 6.2 to 430 v for 45 types.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A110a0
