Overall Length:

9.0 inches

Overall Height:

3.26 inches

Overall Width:

4.5 inches

End Application:

Boat alternator

Absolute Maximum Voltage Rating In Volts Per Characteristic:

24.0 source supply voltage

Absolute Maximum Current Rating Per Characteristic:

200.0 amperes total power dissipation

Mounting Method:

Base

Product Name:

Isolator, 200 amp, 1 input 2 battery with excitation specification/outline

Special Features:

Model number: 20023a

Terminal Type And Quantity:

4 threaded stud

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A503h0
