Overall Length:

0.785 inches

Overall Height:

0.286 inches

Overall Width:

0.310 inches

Operating Temperature Range:

-55.0/+125.0 degrees celsius

End Application:

6625-00-140-1088 test set teletype, an/ggm-21

Features Provided:

Monolithic

Inclosure Material:

Silicon

Design Function And Quantity:

2 flip-flop, j-k, clocked

Special Features:

Separate clock & direct set inputs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
