Body Length:

1.148 inches

Body Width:

0.945 inches

Body Height:

0.213 inches

Features Provided:

Hybrid and thin film

Inclosure Configuration:

Flat pack

Criticality Code Justification:

Feat

Design Function And Quantity:

1 generator, automatic gain control

Product Name:

Hybrid microcircuit, thin film-aatk circle agc

Special Features:

Source control drawing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
