Body Length:

0.188 inches

Body Outside Diameter:

0.375 inches

Operating Temperature Range:

-55.0/+125.0 degrees celsius

End Application:

Jetds cryogenically cooled parametric amplifier type am6602/msc46v

Features Provided:

Hermetically sealed

Inclosure Material:

Metal

Design Function And Quantity:

1 amplifier, operational, general purpose

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
