Body Length:

1.050 inches

Body Width:

1.050 inches

Body Height:

0.320 inches

End Application:

Aircraft, eagle f-15

Inclosure Material:

Ceramic

Criticality Code Justification:

Feat

Design Function And Quantity:

1 amplifier, power

Terminal Surface Treatment:

Solder

Product Name:

Amplifier, power, spin motor

Special Features:

Source control drawing; weapon system essential

Terminal Type And Quantity:

4 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
