Operating Temperature Range:

-0.0/+70.0 degrees celsius

Inclosure Configuration:

Flat pack

Design Function And Quantity:

1 comparator, differential

Special Features:

High speed differential comparator, hermetically sealed, special lead form, infrared soldering

Terminal Type And Quantity:

14 flat leads

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
