**End Application:**

Semiconductors-group 17s

**Input Circuit Pattern:**

2 stage

**Special Features:**

Bdifferential input/output, integrated circuit video amplifier, circuit features emitter-follower outputs, internal frequency compensation and fixedgains of 10, 100, or 400 without external components

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A458a0
