| Body Length:                         |  |
|--------------------------------------|--|
| 0.785 inches                         |  |
| Body Width:                          |  |
| 0.280 inches                         |  |
| Body Height:                         |  |
| 0.200 inches                         |  |
| Operating Tempurature Range:         |  |
| -0.0/+85.0 degrees celsius           |  |
| <b>Design Function And Quantity:</b> |  |
| 2 driver, peripheral                 |  |
| Special Features:                    |  |
| Positive and driver                  |  |
| Shelf Life:                          |  |
| N/a                                  |  |
| Unit Of Measure:                     |  |
|                                      |  |
| Demilitarization:                    |  |
| Yes - demil/mli                      |  |
| Fiig:                                |  |
| A458a0                               |  |
|                                      |  |
