**Body Length:**

0.310 inches

**Features Provided:**

Bipolar and high speed and monolithic

**Inclosure Material:**

Plastic

**Inclosure Configuration:**

Dual-in-line

**Design Function And Quantity:**

1 amplifier, differential

**Terminal Surface Treatment:**

Solder

**Terminal Type And Quantity:**

16 printed circuit

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A458a0
