Body Length:

0.310 inches

Features Provided:

Bipolar and high speed and monolithic

Inclosure Material:

Plastic

Inclosure Configuration:

Dual-in-line

Design Function And Quantity:

1 amplifier, differential

Terminal Surface Treatment:

Solder

Terminal Type And Quantity:

16 printed circuit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
