**Body Length:**

Between 0.755 inches and 0.785 inches

**Operating Temperature Range:**

-55.0/+125.0 degrees celsius

**Inclosure Configuration:**

Dual-in-line

**Output Logic Form:**

Transistor-transistor logic

**Design Function And Quantity:**

1 multivibrator, monostable

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A458a0
