Body Length:

Between 0.755 inches and 0.785 inches

Operating Temperature Range:

-55.0/+125.0 degrees celsius

Inclosure Configuration:

Dual-in-line

Output Logic Form:

Transistor-transistor logic

Design Function And Quantity:

1 multivibrator, monostable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
