| g                                     |
|---------------------------------------|
| Body Length:                          |
| Between 0.755 inches and 0.785 inches |
| Body Width:                           |
| Between 0.290 inches and 0.310 inches |
| Operating Tempurature Range:          |
| -55.0/+125.0 degrees celsius          |
| Features Provided:                    |
| Hermetically sealed                   |
| Inclosure Material:                   |
| Ceramic                               |
| Inclosure Configuration:              |
| Dual-in-line                          |
| Output Logic Form:                    |
| Transistor-transistor logic           |
| Input Circuit Pattern:                |
| 8 input                               |
| Shelf Life:                           |
| N/a                                   |
| Unit Of Measure:                      |
|                                       |
| Demilitarization:                     |
| Yes - demil/mli                       |
| Fiig:                                 |
