**General Description:**

O/a lg in. 1.350; o/a w in. 1.300; o/a h in. 0.230; input frequency megahertz 20; output frequency megahertz 100 and 180; input power dc volts 15; input current milliamperes maximum 60; input impedance ohms 50; output impedance ohms 50; external pin connections 8; pin coating tin dipped; hermetically sealed thick film hybrid module

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli
