Operating Temperature Range:

-55.0/+125.0 degrees celsius

Storage Temperature Range:

-65.0/+150.0 degrees celsius

End Application:

F-16

Features Provided:

Bipolar and hybrid

Inclosure Configuration:

Dual-in-line

Input Circuit Pattern:

2 channel

Case Outline Source And Designator:

D-2 mil-m-38510

Special Features:

Item is double-pole single throw

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A458a0
