**Operating Temperature Range:**

-55.0/+125.0 degrees celsius

**Storage Temperature Range:**

-65.0/+150.0 degrees celsius

**End Application:**

F-16

**Features Provided:**

Bipolar and hybrid

**Inclosure Configuration:**

Dual-in-line

**Input Circuit Pattern:**

2 channel

**Case Outline Source And Designator:**

D-2 mil-m-38510

**Special Features:**

Item is double-pole single throw

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A458a0
