Mckt Hex Inverter - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5962-01-089-6816

General Description:

Bspecification: covers the requirements for monolithic silicon, digital, schotiky-clamped til, hex inverter in a 14-pin ceramic dual in-line package, intended for ground equipment, range: supply voltage .0 to +7.Ovdc, input voltage 0 to +5.5v, storage temperature -65 degrees to +15, 5v; temperature to +150 degrees centigrade: lead (soldering; 10 seconds) 300 degrees centigrade max; ambient operating temperature range: -55 degrees to 125 degrees centigrade **Shelf Life:**

N/a

Unit Of Measure:

Demilitarization:

Yes - demil/mli
