NSN 5962-01-091-0529

Linear Microcircuit - Page 1 of 1

Demilitarization: Yes - demil/mli

Fiig: A458a0

View Online at https://aerobasegroup.com/nsn/5962-01-091-0529 **Body Length:** 0.785 inches **Body Width:** 0.280 inches **Body Height:** 0.200 inches **Maximum Power Dissipation Rating:** 500.0 milliwatts **Operating Tempurature Range:** -55.0/+125.0 degrees celsius **Storage Tempurature Range:** -65.0/+150.0 degrees celsius **Inclosure Configuration:** Dual-in-line **Design Function And Quantity:** 1 amplifier, operational, general purpose **Test Data Document:** 96906-883b standard (includes industry or association standards, individual manufactureer standards, etc.). Shelf Life: N/a **Unit Of Measure:**
