Operating Temperature Range:

-55.0/+125.0 degrees celsius

End Application:

An/alq-153

Features Provided:

Low power

Criticality Code Justification:

Feat

Design Function And Quantity:

1 amplifier, operational, power

Special Features:

Static electricity sensitive

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
