Body Length:

0.840 inches

Operating Temperature Range:

-55.0/+125.0 degrees celsius

Inclosure Material:

Ceramic

Inclosure Configuration:

Dual-in-line

Design Function And Quantity:

1 decoder, binary coded decimal to decimal

Product Name:

Integrated circuit

Terminal Type And Quantity:

16 printed circuit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
