| Body Length:                                   |
|------------------------------------------------|
| 0.250 inches                                   |
| Body Outside Diameter:                         |
| 0.500 inches                                   |
| Operating Tempurature Range:                   |
| -55.0/+85.0 degrees celsius                    |
| Inclosure Configuration:                       |
| Can                                            |
| Case Outline Source And Designator:            |
| T0-8 joint electron device engineering council |
| Shelf Life:                                    |
| N/a                                            |
| Unit Of Measure:                               |
|                                                |
| Demilitarization:                              |
| Yes - demil/mli                                |
| Fiig:                                          |
| A458a0                                         |
