| Body Length:                       |
|------------------------------------|
| 1.573 inches                       |
| Body Width:                        |
| 0.450 inches                       |
| Body Height:                       |
| 0.352 inches                       |
| Operating Tempurature Range:       |
| -55.0/+150.0 degrees celsius       |
| Storage Tempurature Range:         |
| -65.0/+150.0 degrees celsius       |
| Features Provided:                 |
| Monolithic and hermetically sealed |
| Inclosure Material:                |
| Ceramic                            |
| Inclosure Configuration:           |
| Can                                |
| Input Circuit Pattern:             |
| 1 input                            |
| Design Function And Quantity:      |
| 1 regulator                        |
| Terminal Surface Treatment:        |
| Solder                             |
| Shelf Life:                        |
| N/a                                |
| Unit Of Measure:                   |
|                                    |
| Demilitarization:                  |
| Yes - demil/mli                    |
| Fiig:                              |
| A458a0                             |
|                                    |
|                                    |
