| Operating Tempurature Range: |
|---|
| +0.0/+70.0 degrees celsius |
| Features Provided: |
| Hermetically sealed and schottky and expandable |
| Inclosure Material: |
| Ceramic |
| Inclosure Configuration: |
| Dual-in-line |
| Output Logic Form: |
| Transistor-transistor logic |
| Special Features: |
| 24780 unique operations |
| Shelf Life: |
| N/a |
| Unit Of Measure: |
| |
| Demilitarization: |
| Yes - demil/mli |
