**Operating Temperature Range:**

-55.0/+125.0 degrees celsius

**Storage Temperature Range:**

-65.0/+150.0 degrees celsius

**End Application:**

4920-01-065-4907

**Features Provided:**

Monolithic

**Inclosure Material:**

Silicon

**Inclosure Configuration:**

Dual-in-line

**Design Function And Quantity:**

2 comparator, voltage

**Terminal Surface Treatment:**

Gold

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A458a0
