Operating Temperature Range:

-55.0/+125.0 degrees celsius

Storage Temperature Range:

-65.0/+150.0 degrees celsius

End Application:

4920-01-065-4907

Features Provided:

Monolithic

Inclosure Material:

Silicon

Inclosure Configuration:

Dual-in-line

Design Function And Quantity:

2 comparator, voltage

Terminal Surface Treatment:

Gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A458a0
