Operating Temperature Range:

+0.0/+70.0 degrees celsius

Storage Temperature Range:

-65.0/+125.0 degrees celsius

End Application:

Irs-alr 46/69

Features Provided:

Programmable

Inclosure Configuration:

Dual-in-line

Output Logic Form:

Transistor-transistor logic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
