**Operating Temperature Range:**

+0.0/+70.0 degrees celsius

**Storage Temperature Range:**

-65.0/+150.0 degrees celsius

**End Application:**

Dual freq signal

**Inclosure Configuration:**

Dual-in-line

**Design Function And Quantity:**

2 amplifier, operational, general purpose

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A458a0
