Operating Temperature Range:

+0.0/+70.0 degrees celsius

Storage Temperature Range:

-65.0/+150.0 degrees celsius

End Application:

Dual freq signal

Inclosure Configuration:

Dual-in-line

Design Function And Quantity:

2 amplifier, operational, general purpose

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
