

View Online at <https://aerobasegroup.com/nsn/5962-01-141-6938>

**Operating Temperature Range:**

+0.0/+70.0 degrees celsius

**Features Provided:**

Monolithic and high speed and expandable

**Inclosure Configuration:**

Dual-in-line

**Output Logic Form:**

Transistor-transistor logic

**Input Circuit Pattern:**

4 wide 2-2-2-3 input

**Design Function And Quantity:**

1 gate, and-or invert

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A458a0
