Operating Temperature Range:

-55.0/+125.0 degrees celsius

Storage Temperature Range:

-65.0/+150.0 degrees celsius

End Application:

Sac digital network

Features Provided:

Programmable

Inclosure Configuration:

Dual-in-line

Design Function And Quantity:

1 counter, binary 4 bit async

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A458a0
