Operating Temperature Range:

-55.0/+125.0 degrees celsius

Storage Temperature Range:

-65.0/+150.0 degrees celsius

End Application:

465l saccs digital network

Features Provided:

Compatible cmos

Criticality Code Justification:

Feat

Design Function And Quantity:

2 switch, analog, single pole double throw

Special Features:

Electrostatic discharge sens; nha printed wiring board assembly, tdu/audio; t.O. 31s5-2fsc83-11

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
