**Operating Temperature Range:**

-55.0/+125.0 degrees celsius

**Storage Temperature Range:**

-65.0/+150.0 degrees celsius

**End Application:**

465I saccs digital network

**Features Provided:**

Compatible cmos

**Criticality Code Justification:**

Feat

**Design Function And Quantity:**

2 switch, analog, single pole double throw

**Special Features:**

Electrostatic discharge sens; nha printed wiring board assembly, tdu/audio; t.O. 31s5-2fsc83-11

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A458a0
