**Body Length:**

0.390 inches

**Body Width:**

0.220 inches

**Body Height:**

Between 0.140 inches and 0.195 inches

**Operating Temperature Range:**

-55.0/+125.0 degrees celsius

**Inclosure Material:**

Ceramic

**Inclosure Configuration:**

Dual-in-line

**Output Logic Form:**

Complementary-metal oxide-semiconductor logic and transistor-transistor logic and diode-transistor logic

**Input Circuit Pattern:**

Dual 2 input

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A458a0
