Body Length:

0.390 inches

Body Width:

0.220 inches

Body Height:

Between 0.140 inches and 0.195 inches

Operating Temperature Range:

-55.0/+125.0 degrees celsius

Inclosure Material:

Ceramic

Inclosure Configuration:

Dual-in-line

Output Logic Form:

Complementary-metal oxide-semiconductor logic and transistor-transistor logic and diode-transistor logic

Input Circuit Pattern:

Dual 2 input

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
