Operating Temperature Range:

-55.0/+100.0 degrees celsius

Storage Temperature Range:

-65.0/+150.0 degrees celsius

Criticality Code Justification:

Feat

Design Function And Quantity:

1 conditioner, signal and 1 amplifier, signal

Special Features:

Nuclear hardness critical item

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
