Body Length:

Between 0.371 inches and 0.409 inches

Body Width:

Between 0.247 inches and 0.283 inches

Operating Temperature Range:

-55.0/+125.0 degrees celsius

End Application:

Ts-3985/uys- (v)

Features Provided:

Hermetically sealed

Inclosure Material:

Plastic

Inclosure Configuration:

Flat pack

Output Logic Form:

Transistor-transistor logic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
