Body Length:

0.896 inches

Body Width:

0.310 inches

Body Height:

Between 0.140 inches and 0.185 inches

Operating Temperature Range:

-55.0/+125.0 degrees celsius

Features Provided:

Low power and schottky and synchronous and reversible and monolithic

Inclosure Material:

Silicon

Inclosure Configuration:

Dual-in-line

Design Function And Quantity:

1 counter, up/down

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A458a0
