**Body Length:**

0.896 inches

**Body Width:**

0.310 inches

**Body Height:**

Between 0.140 inches and 0.185 inches

**Operating Temperature Range:**

-55.0/+125.0 degrees celsius

**Features Provided:**

Low power and schottky and synchronous and reversible and monolithic

**Inclosure Material:**

Silicon

**Inclosure Configuration:**

Dual-in-line

**Design Function And Quantity:**

1 counter, up/down

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A458a0
