| Body Length:                          |
|---------------------------------------|
| Between 1.230 inches and 1.285 inches |
| Body Width:                           |
| Between 0.510 inches and 0.545 inches |
| Body Height:                          |
| Between 0.150 inches and 0.225 inches |
| Operating Tempurature Range:          |
| -55.0/+125.0 degrees celsius          |
| Inclosure Material:                   |
| Ceramic                               |
| Inclosure Configuration:              |
| Dual-in-line                          |
| <b>Design Function And Quantity:</b>  |
| 1 arithmetic logic unit               |
| Terminal Surface Treatment:           |
| Tin                                   |
| Shelf Life:                           |
| N/a                                   |
| Unit Of Measure:                      |
|                                       |
| Demilitarization:                     |
| Yes - demil/mli                       |
| Fiia:                                 |
