| Overall Length:                                    |
|--|
| 1.300 inches                                       |
| Overall Height:                                    |
| 0.370 inches                                       |
| Overall Width:                                     |
| 0.650 inches                                       |
| Body Length:                                       |
| 1.320 inches                                       |
| Body Width:  |
| 0.600 inches                                       |
| Body Height:                                       |
| 0.200 inches                                       |
| Operating Tempurature Range:                       |
| -25.0/+85.0 degrees celsius                        |
| Storage Tempurature Range:                         |
| -65.0/+125.0 degrees celsius                       |
| Features Provided:                                 |
| Burn in and electrostatic sensitive and programmed |
| Inclosure Material:                                |
| Ceramic  |
| Inclosure Configuration:                           |
| Dual-in-line                                       |
| Output Logic Form:                                 |
| Metal oxide-semiconductor logic                    |
| Input Circuit Pattern:                             |
| 13 input   |
| Terminal Surface Treatment:                        |
| Solder   |
| Voltage Rating And Type Per Characteristic:        |
| 15.0 volts power source                            |
| Memory Device Type:                                |
| Rom  |
| Terminal Type And Quantity:                        |
| 24 printed circuit                                 |
| Shelf Life:  |
| N/a  |
| Unit Of Measure:                                   |
| -  |
| Demilitarization:                                  |
| Yes - demil/mli                                    |
