

View Online at <https://aerobasegroup.com/nsn/5962-01-188-5998>

Operating Temperature Range:

+0.0/+70.0 degrees celsius

Features Provided:

Static operation and high performance and high speed

Inclosure Material:

Plastic

Inclosure Configuration:

Dual-in-line

Output Logic Form:

N-type metal oxide-semiconductor logic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A458a0
